

OCEAN SCIENCES MEETING

FEBRUARY 24 – MARCH 4, 2022
ONLINE EVERYWHERE

Welcome!

Many in our community have been working toward the goals of promoting diversity, equity, and inclusion in the ocean sciences, and OSM 2022 includes many events and sessions focusing on these issues.

This is your guide to events and sessions happening during OSM 2022!

We also welcome everyone to attend the JEDI Committee Town Hall on Friday, February 25. The goal of this event is to bring together members from the broad ocean sciences community to expand the network of ideas, actions, and participants working on increasing justice, equity, diversity, and inclusion in the ocean sciences. Please complete this short survey (<https://www.surveymonkey.com/r/TOSsurvey>) collecting input for discussion. The results of the survey and town hall discussions are intended to benefit the entire community and will be shared via a summary article.

We look forward to seeing you online!
