Fire Restoration

Within hours after a fire, metal fixtures including door handles and faucets can suffer permanent damage if not properly treated immediately. Our certified professionals determine the full extent of fire damage, including the impact of smoke, heat, and residues from fire and smoke. We keep home and business owners informed, helping to overcome their loss and restoring hope by explaining what can be saved and how, in a way they can understand what is happening, what to expect, and what they can do. Emergency fire damage repair services are then employed, including board up services.

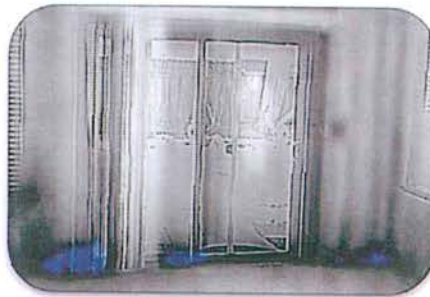

Mold Remediation & Restoration

Mold growth in your home can cause serious harm to the health of your family. If you've discovered mold growing in your home, don't gamble with your family's health. Our mold removal services are comprehensive, encompassing mold remediation, mold odor removal, as well as cleaning and sanitization.

Water Damage Restoration

Whether you've had a small leak from a household appliance, or large scale flooding in your premises we're here to help. Our recovery and restoration process is aimed at property and people. We are a water damage repair company you can rely on to minimize the impact of flooding and water damage. Our professionals identify the full extent of moisture damage, both obvious and unseen, by using sensors such as moisture detectors and hygrometers. Meanwhile, we help homeowners overcome their feeling of helplessness by explaining the process in a way that they can understand what is happening, what to expect, and what they can do. Using equipment for drying, dehumidifying, deodorizing, and disinfecting, we restore a home or business with minimal disruption so that people can get back to their normal lives.

Infrared Detection of
Mold and Water Damage

If you are looking for a fast and reliable fire and water damage restoration company or mold and mildew removal company, look no further than MDC Builders, Inc. Serving Contra Costa County and surrounding area.
