

DEDICATED TO PROVIDING A WIDE VARIETY OF BUILDING MAINTENANCE SERVICES

WHO WE ARE

Founded in 1989, EastWest Building Works is the leading provider of building services to multifamily and commercial clients.

EastWest is founded upon a simple principle: **“One Call, All Needs.”** Instead of having to call several different companies for each building and solicit bids from each one, screen each one, compare the scope of work for each one, hire us. We meet all your needs with one call.

WHY CHOOSE US

We understand your needs. On our staff we have former HOA and Property Managers, former Brokers, investment property owners.

We understand the intricacies of the real estate industry and what you need from your building services. Simplicity, Transparency, Communication.

AT EASTWEST, WE PRIDE OURSELVES IN PUTTING YOUR NEEDS FIRST.

That is why our teams are trained in communication from the bid process to when the job is complete; it is why we always stand by our work.
