Online Voting is finally here!

Online voting is now legal in California—and we're here to help your communities make the switch with confidence. Our platform is built for HOAs, making it easy for residents to vote securely any time, any place.

No Setup Fees

Build your ballots or surveys at your own pace. Payment is only due when you're ready to get out the vote!

Simple Signup

Homeowners can easily access their ballot or survey using just their account number and unique registration code.

Reminder Emails

Set up automatic reminder emails to encourage homeowners to register and complete their vote.

Hybrid Tabulation

Votes submitted online are automatically tabulated, with an option to manually input mail-in ballot submissions.

Results Dashboard

Access your admin account during the voting period to monitor results in real-time—available 24/7.

A+ Security Rating

Top-tier security rating from SSL Labs, ensuring robust encryption and data protection.

Incorporating online voting can cut costs by 50%.
