

A BELFOR  COMPANY

Water Damage Restoration | Fire & Smoke Damage Restoration | Mold Remediation | Odor Removal | Sewage Cleanup

RENT MORE UNITS FASTER.

As a community manager, it's important to keep your units safe, comfortable, and appealing. When mold, water damage, odors, or dirty carpets get between you and the best environment possible for your tenants, we're here to help!

The professional team at 1-800 WATER DAMAGE will solve your property problems quickly. As specialists in a variety of property restoration fields, we'll take care of mold growth, water damage, persistent odors, dirty carpets, and other property damage issues.

Anytime you bring us in to work on an apartment or condo, our goal is to make the process as pain free as possible so you can retain tenants, decrease turn time for unoccupied units and increase your revenue.

Here are a few ways we do that:

- We work with all insurances and will deal with the company directly if necessary.
- Upon completion of a job, we'll provide you with the documentation needed and desired to show all interested parties that the problem has been resolved.
- We use IICRC certified technicians to quickly address water, fire or other damages. This saves you money by addressing issues quickly.
- We're happy to address any additional questions or concerns from your tenants to ensure peace of mind about our work.
- We offer free water damage and moisture inspections for suspected mold.

Let us help get you decrease apartment turn time and expenses. When you encounter property damage issues, contact your local 1-800 WATER DAMAGE.
