Speaker Disclosure Declaration Instructions

Requirements for Disclosure
(Concerning Relationship That Hold the Potential for Bias)

A potential for bias may exist if a continuing education activity faculty member is affiliated with or has financial interest in any organization(s) that may have a direct interest in the subject matter of the presentation. Situations involving potential for bias are not inherently problematic or unethical, but the prospective audience must be made aware of the affiliation or financial interest/arrangement* via an acknowledgement in the faculty listing in the activity syllabus.

For example, if the speaker has an affiliation with such an organization, the following disclosure is appropriate:

John Doe, Pharm.D.
Assistant Professor of Cardiology
ABC University Medical Center
President
Right to Life Association

Or, if the speaker has a financial interest/arrangement with such an organization, the disclosure may be as follows:

John Doe, Pharm.D.
Assistant Professor of Cardiology
ABC University Medical Center
Research Consultant
XYZ Pharmaceuticals

or

John Doe, Pharm.D.
Assistant Professor of Cardiology
ABC University Medical Center
Stockholder
XYZ Pharmaceuticals

The intent of this policy is not to prevent a speaker with an affiliation or financial interest from making a presentation. It is intended that any potential bias be identified openly so that the audience is provided full disclosure of the facts and may form their own judgements about the presentation. A reasonable test to guide decisions about what to disclose is whether a particular affiliation relationship could cause embarrassment to the individual or institution involved or lead to questions about the speaker's motives should such affiliation(s) be disclosed to the general public.

*Financial interest/arrangement is defined as shareholding, acceptance of paid travel expenses or honoraria or acceptance of payment for research.
