

Innovations and Safety in Parenteral Nutrition — Insights from ISMP

This session will explore innovations and safety strategies in parenteral nutrition, emphasizing the clinical role of alternative lipid sources. Speakers will share actionable strategies and best practices for the use of alternative lipids in nutrition, PN's place in clinical therapy, and best practices for multi-chamber bag PN.

Renaissance Orlando at SeaWorld, Coral Ballroom
August 7 | 12:30–1:30 PM | Lunch Provided

Explore practical strategies and emerging insights on:

- Alternate lipid sources in clinical care
- The role of PN in overall therapy
- Safe implementation of multi-chamber bag PN
